SUMMARY

Automation Developer and JavaScript Engineer with **3+ years of professional experience** in frontend, backend, and marketing automation systems. Specialized in **GoHighLevel (GHL), n8n, Make (Integromat), N8N and Zapier**, with strong expertise in **JavaScript, React.js, and Node.js**. Proven track record of building **scalable automations, AI conversation agents, CRM workflows, booking systems, payment-triggered processes, and lead nurturing campaigns**. Passionate about optimizing business operations through automation, integrations, and intelligent workflows.

EXPERIENCE

Mobile Application Development

Wise 360 2023 January – 2024 March

Tool: React Native

- Proficient in frontend development using **React Native**
 - Experienced in designing user-friendly and responsive interfaces
 - Skilled in developing and managing all application modules
 - Ensures seamless functionality across the application
 - Focused on delivering a smooth and high-quality user experience
-

Automation Developer (GHL, n8n, Make)

BuildBerg.co • 2024 April – 2025 March

- Designing and managing **advanced automation systems** using **GoHighLevel, n8n, and Make**.

- Building complete CRM workflows including **lead capture, qualification, routing, follow-ups, and pipeline automation**.
 - Developing **AI-powered conversation workflows** for SMS, email, and chat to enhance lead engagement.
 - Creating **custom Webhooks and API integrations** between GHL, Google Sheets, Stripe, Calendly, Facebook Ads, and internal tools.
 - Implementing **payment-based automations**, automated onboarding, and task assignment systems.
 - Optimizing workflows for **performance, scalability, and reliability** across multiple client accounts.
 - Collaborating with marketing and sales teams to align automation strategies with business goals.
-

Automation & GHL Engineer

HuboWeb • *April 2025 – Present*

- Built **50+ automation workflows** in GoHighLevel including funnels, AI chat agents, booking systems, forms, SMS/email campaigns, and pipelines.
 - Designed **Make (Integromat) scenarios** connecting GHL with Google Sheets, Stripe, Calendly, Facebook Ads, and email platforms.
 - Created advanced **Zapier automations** for lead routing, task management, Slack/Discord alerts, and CRM synchronization.
 - Specialized in **trigger-based workflows, webhook handling, lead qualification logic**, and real-time data syncing.
 - Improved operational efficiency and reduced manual work through end-to-end automation.
-

PROJECTS

AI Agent & Conversation Workflow

HuboWeb

- Built an **AI-powered conversation agent** using GoHighLevel workflows and custom triggers.
 - Automated **lead responses, qualification, and follow-ups** via personalized SMS and email.
 - Integrated **booking calendars** with AI chat for a seamless customer journey.
-

Migration Payment & Task Automation

HuboWeb

- Designed a system where **successful payments trigger Webhooks**.
 - Automated **client creation and task checklist assignment** via Make scenarios.
 - Reduced onboarding time and manual operations significantly.
-

Estimation Project (Full-Stack Application)

HuboWeb

- Developed a full-stack web application using **React.js (frontend)** and **Node.js with Express.js (backend)**.
 - Designed and implemented **RESTful APIs** for seamless frontend–backend communication.
 - Built responsive UI components with cross-browser compatibility.
 - Managed database operations using **MongoDB**, including schema design and data validation.
 - Integrated third-party APIs and implemented **authentication & authorization (JWT)**.
-

EDUCATION

Bachelor of Science (B.S) in Software Engineering

Comsats, Abbottabad • 2024

CGPA: **2.92 / 4.00**

SKILLS

- **Automation & CRM:** GoHighLevel (GHL), n8n, Make (Integromat), Zapier
 - **Frontend:** JavaScript, React.js, Vue.js
 - **Backend:** Node.js, Express.js
 - **Databases:** MongoDB
 - **APIs & Integrations:** REST APIs, Webhooks, Third-party integrations
 - **Marketing Automation:** Funnels, AI chat agents, booking systems, SMS & email campaigns
 - **Analytics & Optimization:** Workflow optimization, automation analytics
-
